EliTe®Compact: One Answer to High Cotton Prices

As we all know, in the past months cotton prices have soared to unprecedented highs. Actually, a customer of mine has studied the prices on the New York Cotton Exchange from about 1875 to the present, and he told me that even adjusted for inflation, cotton prices have never...

SUESSEN's Vision 2011 [Jan. 2011]

Vision and Mission statements have been popular for quite some time now. I suspect this is taught at MBA courses in business schools world over (This writer is just an old fashioned mechanical engineer...)...

SUESSEN EliTe® and EliTwist®Compact Spinning: The Success Story Continues! [16.11.2010]

People like to think in fixed dates. If one wants to fix a birthday for compact spinning, I feel the ITMA '99 in Paris would be the right date. At that exhibition, Rieter, SUESSEN, Zinser and some others who no longer exist exhibited their versions of compact spinning. Obviously, some systems were more successful than others. Today, SUESSEN EliTe® is by far the preferred Compact Spinning System, with about...

Spare Parts - A Difficult and Controversial Subject [10.11.2010]

In the spinning industry spare parts, particularly technology parts (consumables) are almost an emotional subject! The mill people feel, that the OEM is charging way too much and the supplier (OEM) feels, that mills are betraying him by buying from alternative sources.

90 Years Anniversary [13.04.2010]

This year, Spindelfabrik Suessen GmbH celebrate their 90th anniversary. Since its foundation in December 1920, the modest workshop evolved into a global player, developing and manufacturing components for the spinning industry. In 2001, SUESSEN became a unit of the Swiss Rieter Group in Winterthur.
