## PRESS RELEASE

*free for publishing*

*Süssen, Germany, May 2009*

### **ITM 2009, Istanbul, Turkey, June 06 – 10**

#### **SUESSEN exhibits in Hall 3, Booth A309-B**

In the past 20 months, there have been three large international textile machinery shows: ITMA 2007 in Munich, ITMA Asia 2008 in Shanghai and Indian ITME 2008 in Bangalore.

*However, Turkey has always been an important market for SUESSEN's products, and this is the reason, why SUESSEN's management has decided that of course SUESSEN will participate at the upcoming ITM 2009!*

Below, we have listed some of our products, which will be exhibited.

We are looking forward to your visit on our booth!

#### **1. SUESSEN HP Drafting Systems for ring spinning and roving frames**

*Customers buying new ring spinning and/or roving machines may specify these components directly with the machine maker.*

- **HP-GX 3010** Top Weighting Arm for short-staple spinning frames
- **ACP-Quality Package** - better fiber guidance for better yarn quality  
ACP solutions available for top weighting arm models HP-GX, HP-A, PK type and P3.1
- **HP-GX 4010** Top Weighting Arm for roving frames
- **HP-GX 5010** Top Weighting Arm for worsted spinning frames
- roller stands, HP Bottom Rollers with bearings, HP-R Top Rollers, bottom apron guide bars, cradle spacers and aprons etc.

à available for any brand or type of ring spinning frame/ roving frame.

#### **2. SUESSEN Open-End Rotor Spinning**

##### **2.1 SpinBoxes for OEMs - RIETER, SAVIO**

##### **2.2 Premium Parts - Modernization of Autocoro Rotor Spinning Machines**

- SC 1-M and SC 2-M SpinBox for Autocoro SE 8 and SE 9
- SQ 1-M and SQ 2-M SpinBox for Autocoro SE 8 and SE 9

### 2.3 Premium Parts - Modernization Packages

- ProFiL<sup>®</sup> Cartridge – new EverClean axial rotor bearing for SE 7 to SE 11
- SweepCat trash removal system
- Trash Channel modernization
- Electronic Yarn Detector
- Piecing-Up Package
- Package Cradle Shock Absorber
- Carbon Fibre Rod
- RK3 Cleaning Head

### 2.4 Premium Parts - Spinning Components and Spare Parts for SC-M, SQ-M, SE 7 – SE 11

- ProFiL<sup>®</sup> Rotor
- ProFiL<sup>®</sup> Cartridge – new EverClean axial rotor bearing
- ProFiL<sup>®</sup> Reflector
- TwinDisc with 2 Cooling Grooves
- SOLIDRING/ Opening Roller
- ProFiL<sup>®</sup> Navels
- Channel Plate/ Channel Insert
- Torque-Stop
- ProFiL<sup>®</sup> BrakePad
- TrashAdapter

### 3. Testing Equipment QuickSpin System QSS

- **MDTA3** – Micro Dust Trash Analyser
- **QuickSpin Unit** –
- **QuickSpin System QSS** – MDTA3 + QuickSpin Unit

For marketing, we have collaboration with SDL Atlas, the renowned name for testing equipments.

### 4. Compact Ring Spinning Technology

The SUESSEN **EliTe<sup>®</sup> Compact Spinning System** was first introduced to the market at ITMA '99 in Paris. In a short period of time, it achieved a reputation as being the most versatile compact spinning system. To date, the EliTe<sup>®</sup> Compact Spinning is running on over **2,900,000** ring spindles (05.09) worldwide which makes SUESSEN the undisputed leader in this field.

The Compact Ring Yarn, providing revolutionary improvements in all yarn parameters, has already established new ring yarn quality standards. Furthermore, it has proven its important cost effective advantages in the ring spinning

process and in downstream processes. The final result of using EliTe® Compact Yarn is an unparalleled improvement in the quality of the textile end product.

- **EliVAC Control V.2:** Monitoring of the EliVAC suction system
- **EliTwist:** More than 300,000 running spindles show the success of this spinning plied yarn directly.
- **ACP:** the new Quality Package for HP-GX, HP-A and also P3.1

EliTe® CompactSet is available for all volume models and types of ring spinning machines.

SUESSEN cooperates with Jingwei in this field of compact spinning.
